## 2. DATOS GENERALES

---

### OBJETIVOS GENERALES

#### Teóricos

1. Know the basic notions that define both political marketing and social marketing, as well as its history and evolution.
2. Understand the similarities and differences between commercial, social and political marketing.
3. Differentiate between electoral and political marketing.
4. Identify and apply marketing techniques and strategies used in the construction of the image, messages and campaigns of political parties and public or private institutions.
5. Design and plan campaigns and communication strategies for political parties and public or private institutions

#### Prácticos

- The practical objectives are equivalent to the theoretical ones pursued by this subject.
- All contents will also be addressed from a practical perspective.
- Throughout the semester will be studied various real cases that will allow to apply the theoretical knowledge acquired.

### COMPETENCIAS QUE SE DESARROLLAN

#### General

CG3. Knowledge of the research and interrelational processes among the subjects of commercial, advertising and public relations activities. It develops the conceptual foundations of strategic management applied to communication by objectives, from a methodological approach, to assist operators who have to make decisions in search of communicative effectiveness.

#### Transversal

CT1. Ability to take advantage of the various sources of information available to the student in the different areas of study to maximize their training and thus achieve optimal performance in the academic, personal and, subsequently, professional.

CT5. Ability to work and interact in multi and interdisciplinary teams, contributing to the achievement of previously established objectives, and reverting their results in personal and collective learning.

CT6. Ability to acquire an ethical commitment on a personal and social level, manifest both in their academic behavior and in their future professional work.

#### Specific

CE1. Theoretical and practical knowledge of communication techniques, oral expression and project defense. Especially those used

in advertising management and business and institutional communication with its various publics.

CE9. Capacity and ability to collaborate in the design of the communication plan: set communication objectives, define the target audience, propose strategies, and determine, define and control the budgets of publicity and public relations communication.

CE10 Capacity and ability to use communication technologies and techniques, in different media and conventional and non-conventional media, combined and interactive (multimedia), especially to apply them to the world of communication, and in the creation of new media.
